

## **Uranex to commence drilling at the Manyoni Project following Delivery of Sonic Drill Rig in Tanzania**

14 April 2009

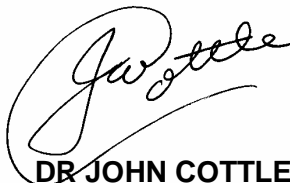

- **Clearance of Sonic Drill Rig into Tanzania**
- **Sonic Rig to provide low cost high quality drill samples for resource upgrade and extension of mineralisation**

---

Uranex is pleased to announce the arrival and clearance through customs of all components of the newly purchased Sonic Drill Rig.

The schedule is in place to assemble and commission the rig during April, using a highly experienced Australian operator to provide training in Sonic drilling to an experienced Tanzanian drilling operator and crew.

Once commissioned, the rig will provide low cost, high quality samples for the upgrade of the current Manyoni JORC Inferred Resource of 15 million pounds of U<sub>3</sub>O<sub>8</sub> above 100ppm U<sub>3</sub>O<sub>8</sub>. It will also be used to test for extensions of mineralisation both within the Manyoni Project area, and further into the surrounding Bahi Region.
