

Nuclear Reactor Situation in Japan.

Uranex NL (“Uranex”) is deeply saddened by the tragedy of the earthquake and tsunami in Japan. The loss of life, injury and widespread damage are horrific and the scale of the natural disaster is almost beyond comprehension.

We express our sympathy to those who have lost relatives, friends and work colleagues in this catastrophe.

The Company would like to draw investors and stakeholders attention to a link to the Australian Uranium Association website, detailing useful links for information on the Nuclear Reactor Situation in Japan.
